Fruition
Digital Signage Made Simple
Static Signage

USB stick loaded with an image or video will display the content when inserted into the TVs USB port and selected with the television remote.

The benefits:
- No internet connection required
- Portrait or landscape content
- Cost effective

Dynamic Signage

Media Scheduler inserted into the TVs HDMI port and connected to a power socket and a Wi-Fi connection will display content scheduled from a remote device.

The benefits:
- Remote access from anywhere in the world
- Automatically reboots if power outage
- Portrait or landscape content
Getting beautiful content on screen has never been easier.

The easiest way to get content on your screens.

The simple and easy to use hardware and dynamic software allows you to present images, videos, documents, apps and websites in an engaging way.

The benefits of digital signage.

- Captivate customers with daily and weekly offers
- Design and update calls to action with the click of a button
- Change content remotely with our dynamic package
